Profile

Based in Sargodha, highly skilled and experienced full-stack developer specializing in Node.js, React, Flutter, and Laravel. Strong background in building scalable, high performance web and mobile applications with modern, responsive user interfaces. Proven ability to collaborate across teams and deliver complex, high-quality solutions efficiently within tight deadlines.

Skills

- Node JS
- Rest API's
- Blade Template Engine
- Express.js
- Firebase integration
- MonogDB
- MySQL
- Deployment pipeline (Docker, CI/CD pipelines, Nginx)
- Middleware & routing architecture
- Microservices
- Soap API's
- React Hook's.
- Dart
- Third-party package integration
- Real-time apps (WebSockets, Socket.io 📡)
- State management

Certificates

- React-Amigoscode
- React-Native-Certificate-of-Udemy
- Node.js-Developer-OpenJS Foundation
- DBMS-Certificate-of-Udemy
- Java Multithreading
- Flutter-Dart-Udemy

Professional Experience

2025 January– 2025 May Lahore, Pakistan	Skill leo, Software Engineer, Onsite	Internship
2025 Mar – 2025 May Lahore, Pakistan	web developer , noubook.mu	Project Base
2025 Nov – Current Sargodha, Pakistan	Skill leo, App developer remote	Remote

Projects

Ticket Booking system (noubook.mu [↗](#))

A multi-service booking platform with admin and vendor dashboards. The system also supports Seats io integration or event seat selection and a flexible theming architecture.

Technologies Used: Laravel, Blade template engine, MySQL, Vue JS, Bootstrap modules.

Warehouse Management System (app.sasmedipro.com [↗](#))

It is built with React frontend and a Laravel API backend, handling inventory, sales, purchases, loans, and deliveries.

Technologies Used: Laravel, React, MySQL, Rest API's, Repositories, hooks, State management.

Rock-Paper-Scissors (AI Game)

This is a Rock-Paper-Scissors game where the player competes against an AI that learns patterns in the player's moves using a neural network (LSTM).

Technologies Used: JavaScript (ES6+), GPU.js, DOM API, LSTM, Neural network.

Mobile Car Wash Application (bobbyshineshop.online [↗](#))

A WordPress-based website for Bobby Shine Shop that offers on demand car wash services with custom plugin integrations and tailored templates.

Technologies Used: Wordpress, Elementor, WooCommerce, Stripe Integration, PHP.

Final Year Project – PVZ clone

This is a JavaScript clone of PVZ built using the Canvas/DOM system, where game objects are managed through custom classes and a timed task engine.

Technologies Used: Event Queue System, DOM API, Data structures JS, OOP Patterns.

Smart Tailor

Smart Tailor is a mobile app built with Flutter that helps tailors manage client measurements, orders, and records efficiently. It uses Firebase real-time data storage, authentication, and cloud-based synchronization.

Technologies Used: Flutter, Firebase, Dart, Cloud, Firebase Functions, third-party APIs, Google Play Console.
